

Spatial Reasoning Free Test

Questions Booklet

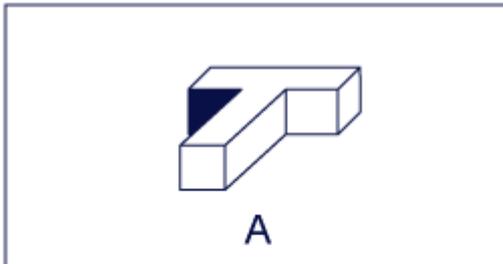

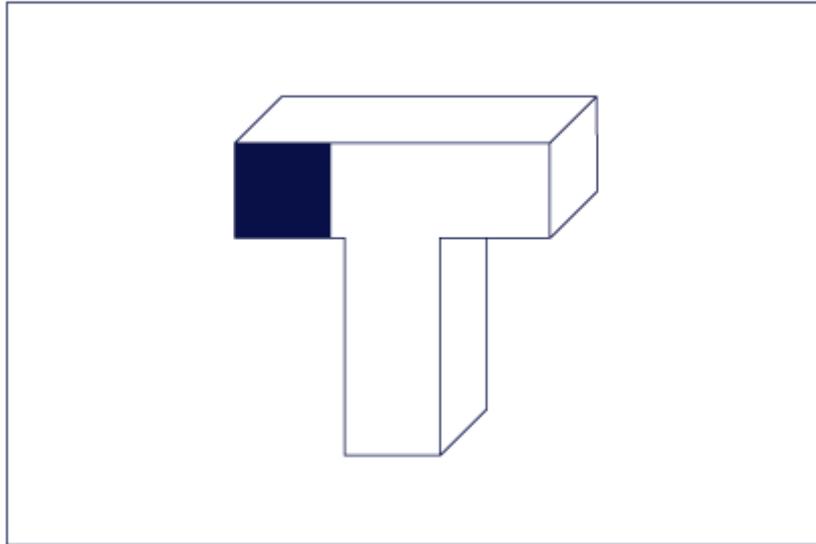

Instructions

This spatial reasoning test comprises 12 questions, each consisting of abstract shapes of which you will have to mentally manipulate. Each question consists of four answer options. Your task is to choose which one of the options is the correct manipulation.

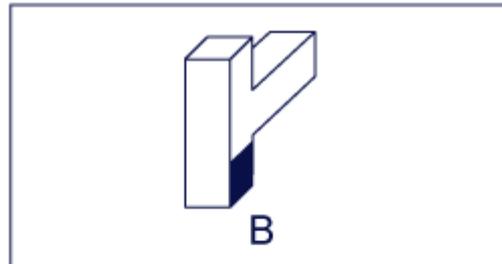

You will have to work quickly and accurately to perform well in this test. There is no overall time limit for the test, but there is a limit of 40 seconds for each question.

Try to find a time and place where you will not be interrupted during the test. The test will start on the next screen.
